

Issues & Policies in American Government (Honors):

American Government & Business

(GOV 312L / 38475)

Course Description

The relationship between the private and public sectors in the United States has, in many ways, defined us as a country. The Founders struggled to produce a constitution that offered blueprints for both the government and the economy and how they should interact. This course explores the history of this interaction through a variety of lens, tackling such topics as property rights, regulation, corporate political behavior, and, of course, the political economy of pirates....

This course fulfills the second half of the legislative requirement for Government coursework.
